

## Plastic and Vinyl Lackspray Black

**Bardahl Plastic and Vinyl Lackspray** is a high-quality, fast-drying black lacquer. This is especially for bumpers, spoilers and other plastic parts, without a special pre-treatment.

### Properties

---

- For indoors and outdoors
- Quick drying
- Long service life
- Anti-corrosion

### Manual

---

Remove rust and dirt from the parts to be treated. Cover the non-sprayable surface with paper. Shake the **can of Bardahl Plastic and Vinyl Lackspray** well. Spray at room temperature at a distance of 30-40cm. Spray in thin layers. After use, turn the can and spray until only gas escapes, this cleans the spray head. This spray can is filled with environmentally friendly gas.
